PROFESSIONAL SUMMARY

Aspiring Data Analyst and B.Tech Computer Science student with a strong foundation in SQL, Python, Excel, Power BI, and data visualization. Skilled in data cleaning, analysis, dashboard creation, and transforming raw data into actionable insights through academic and personal projects. Passionate about solving business problems using data, with strong analytical thinking, attention to detail, and a commitment to continuous learning. Seeking an entry-level Data Analyst role to contribute to data-driven decision-making while growing professionally.

EDUCATIONS

Bachelor of Technology (B. Tech) in Computer Science and Engineering, <i>Rayat Bahra Professional University</i> - CGPA: 6.4/10 - Expected Graduation: 2027	2023 – 2027 HOSHIARPUR
Senior Secondary (Class XII), S.D. Collegiate Pt. Amrit Anand Memorial Senior Secondary school CGPA: 71.2%	2021 – 2023 HOSHIARPUR

SKILLS

Programming Languages Python, SQL	Data Visualization & BI Power BI, Tableau, Microsoft Excel, Matplotlib, Seaborn, Plotly
Database MySQL, PostgreSQL	Python Libraries Pandas, NumPy, Matplotlib, Seaborn, Plotly, Tkinter, CustomTkinter
Core Concepts Git, GitHub, Jupyter Notebook, VS Code, Excel, Power BI	Tools & Technologies Git, GitHub, VS Code, CMake, REST APIs
Soft Skills Analytical Thinking, Problem Solving, Communication, Attention to Detail, Team Collaboration, Adaptability	

PROJECTS

IPL Data Analysis - Analyzed 1,000+ IPL matches to uncover player performance, team win rates, venue impact, and toss influence. - Performed data cleaning, exploratory data analysis (EDA), and built interactive visualizations to generate actionable insights. - Developed dashboards highlighting Orange Cap, Purple Cap, seasonal trends, and team performance metrics.
Sales Performance Dashboard - Built an interactive sales dashboard to analyze revenue, profit, customer segments, and regional performance. - Designed KPI cards, charts, and filters to monitor monthly sales trends and business performance. - Cleaned and transformed raw sales data to create meaningful reports for data-driven decision-making.
Netflix Movies & TV Shows Analysis - Analyzed the Netflix dataset to explore content distribution by genre, country, release year, rating, and content type. - Cleaned and transformed raw data using Pandas and performed exploratory data analysis (EDA). - Created interactive visualizations to identify viewing trends, popular genres, and global content distribution.
